

Preliminary Program

Thursday, October 18th, 2012

13:00-15:00 HPV AND ONCOGENIC VIRUSES

Chairs: A McBride, T Meyer

13:00-13:10 **Welcome (Stockfleth, Trefzer, Nindl)**

13:10-13:30 **The Role of Mast Cells in the Defence against Viruses**
F Siebenhaar

13:30-14:00 **Alpha and Beta PV Life Cycles**
J Doorbar

14:00-14:30 **Molecular Events Involved in PV Replication and Transformation**
M von Knebel Doeberitz

14:30-15:00 **Selected Abstracts**

15:00-15:30 Coffee Break

15:30-17:00 CUTANEOUS HPV

Chairs: H Pfister, F Rösl

15:30-16:00 **Role of EVER Proteins in HPV Infections**
M Favre

16:00-17:00 **Selected Abstracts**

17:00-17:30 Coffee Break

17:30-19:00 KEYNOTE LECTURES

Chairs: I Nindl, E Stockfleth

17:30-18:15 **Antimicrobial Peptides in Antiviral Defense**
JM Schröder

18:15-19:00 **Neuropelveology – A New Discipline in Medicine**
M Possover

19:00 Welcome Reception

Friday, October 19th, 2012

08:00-09:30 EPIDEMIOLOGY I

Chairs: M Pawlita, JN Bouwes Bavinck

08:00-08:20 **UV Dose Rates & Skin Cancer**
C Surber

08:20–08:40 **Cutaneous HPV & Skin Cancer Risk**

JN Bouwes Bavinck

08:40–09:30 **Selected Abstracts**

09:30–10:00 Coffee Break

10:00–12:00 CARCINOGENESIS I

Chairs: D Galloway, TG Hofmann

10:00–10:30 **Skin Cancer Development and Progression**

P Boukamp

10:30–10:50 **Signalling after UV-induced DNA Damage**

T Hofmann

10:50–11:10 **Molecular Mechanisms of β -/ γ -HPV Types**

A Storey

11:10–11:30 **E6 and E7 of β -HPV and Skin Cancer**

M Tommasino

11:30–12:00 **Selected Abstracts**

12:00–13:00 Lunch

13:00–15:00 CARCINOGENESIS II

Chairs: M Favre, M Tommasino

13:00–13:20 **Skin Carcinogenesis in Transgenic Mice**

H Pfister

13:20–13:40 **HPV and Skin Cancer: Lessons from the Rabbit**

T Iftner

13:40–14:00 **PV Induced Skin Cancer in *Mastomys coucha***

F Rösl

14:00–14:20 **HPV & Skin Cancer: Lessons Learned in Epidermodysplasia verruciformis Patients**

M Gariglio

14:20–15:00 **Selected Abstracts**

15:00–15:15 Coffee Break

15:00–16:00 POSTER WALK

16:00–18:00 CARCINOGENESIS III

Chairs: J Doorbar, A Storey

16:00–16:20 **Tropism Shifts of PV from an Evolutionary Perspective**

M Gottschling

16:20–16:40 **Persistent Replication of β -PV Genome**

A McBride

16:40–17:00 **HPV and Antigen Presenting Cells in the Skin**

M Hibma

17:00–17:20 **Interaction of β -HPV with the Immune System**

S Smola

17:20–18:00 **Selected Abstracts**

19:30 Transfer from the Mercure Hotel

20:00 Banquet

Details will be announced later.

Saturday, October 20th, 2012

09:00-10:40 THERAPY

Chairs: E Geissler, U Trefzer

09:00-09:30 **Immunosuppressive Drugs and Cancer**
E Geissler

09:30-09:50 **New Treatment Options against Skin Tumors**
E Stockfleth

09:50-10:10 **Immunosuppressive Strategies for Skin Cancer of OTR**
S Euvrard

10:10-10:40 **Prophylactic Vaccine against HPV Associated Diseases**
L Gissmann

10:40-11:00 Coffee Break

11:00-12:30 POLYOMAVIRUS I

Chairs: J Becker, C Sullivan

11:00-11:30 **Cellular Tropism of MCV**
C Buck

11:30-11:50 **Serological Studies with Cutaneous Polyomaviruses**
M Pawlita

11:50-12:10 **MCV & Merkel Cell Carcinoma: Impact on Pathology**
A zur Hausen

12:10-12:30 **Transforming Properties of MCV**
D Galloway

12:30-13:30 Lunch

13:30-16:00 POLYOMAVIRUS II

Chairs: C Buck, A zur Hausen

13:30-13:50 **MCV & Merkel Cell Carcinoma: Impact on Clinic & Function**
J Becker

13:50-14:10 **Discovery & Function of microRNA in PV(-like) Viruses**
C Sullivan

14:10-14:30 **Polyomavirus & Transforming Properties of MCV**
N Fischer

14:30-15:00 **Selected Abstracts**

15:00-15:30 **Concluding Remarks**
D Galloway

15:30-15:45 **Poster Prizes**
J Becker, U Trefzer, E Stockfleth, I Nindl

Abbreviations:

HPV: human papillomavirus

MCV: merkel cell polyomavirus

OTR: organ transplant recipient

PV: papillomavirus

UV: ultraviolet

General Information

ORGANIZING COMMITTEE

- President: Ingo Nindl (Berlin, GER)
Members: Eggert Stockfleth (Berlin, GER)
Uwe Trefzer (Berlin, GER)
Jürgen Becker (Graz, AUT)
Honorary President: Lutz Gissmann (Heidelberg, GER)

SCIENTIFIC COMMITTEE

- Jan Nico Bouwes Bavinck (Leiden, NED)
John Doorbar (London, GBR)
Denise A. Galloway (Seattle, USA)
Thomas Iftner (Tübingen, GER)
Thomas Meyer (Hamburg, GER)
Herbert Pfister (Köln, GER)
Alan Storey (Oxford, GBR)
Axel zur Hausen (Maastricht, NED)

INVITED SPEAKERS & TOPICS

- J Becker (Graz, AUT)
MCV & Merkel Cell Carcinoma: Impact on Clinic & Function
- P Boukamp (Heidelberg, GER)
Skin Cancer Development and Progression
- JN Bouwes Bavinck (Leiden, NED)
Cutaneous HPV & Skin Cancer Risk
- C Buck (Bethesda, USA)
Cellular Tropism of MCV
- J Doorbar (London, GBR)
Alpha and Beta PV Life Cycles
- S Euvrard (Lyon, FRA)
Immunosuppressive Strategies for Skin Cancer of OTR
- M Favre (Paris, FRA)
Role of EVER Proteins in HPV Infections
- N Fischer (Hamburg, GER)
Polyomavirus & Transforming Properties of MCV
- D Galloway (Seattle, USA)
Transforming Properties of MCV
- M Gariglio (Novara, ITA)
HPV & Skin Cancer: Lessons Learned in EV Patients
- E Geissler (Regensburg, GER)
Immunosuppressive Drugs and Cancer
- L Gissmann (Heidelberg, GER)
Prophylactic Vaccine against HPV Associated Diseases
- M Gottschling (München, GER)
Tropism Shifts of PV from an Evolutionary Perspective
- M Hibma (Otago, NZL)
HPV and Antigen Presenting Cells in the Skin

- T Hofmann (Heidelberg, GER)
Signalling after UV-induced DNA Damage
- T Iftner (Tübingen, GER)
HPV and Skin Cancer: Lessons from the Rabbit
- A McBride (Bethesda, USA)
Persistent Replication of β -PV Genome
- M Pawlita (Heidelberg, GER)
Serological Studies with Cutaneous Polyomaviruses
- H Pfister (Köln, GER)
Skin Carcinogenesis in Transgenic Mice
- M Possover (Zürich, SUI)
Neuropelveology – A New Discipline in Medicine
- F Rösl (Heidelberg, GER)
*PV Induced Skin Cancer in *Mastomys coucha**
- JM Schröder (Kiel, GER)
Antimicrobial Peptides in Antiviral Defense
- F Siebenhaar (Berlin, GER)
The Role of Mast Cells in the Defence against Viruses
- S Smola (Homburg, GER)
Interaction of β -HPV with the Immune System
- E Stockfleth (Berlin, GER)
New Treatment Options against Skin Tumors
- A Storey (Oxford, GBR)
Molecular Mechanisms of β -/ γ -HPV Types
- C Sullivan (Austin, USA)
Discovery and Function of microRNA in PV(-like) Viruses
- C Surber (Basel, SUI)
UV Dose Rates & Skin Cancer
- M Tommasino (Lyon, FRA)
E6 and E7 of β -HPV and Skin Cancer
- M von Knebel Doeberitz (Heidelberg, GER)
Molecular Events Involved in PV Replication and Transformation
- A zur Hausen (Maastricht, NED)
MCV & Merkel Cell Carcinoma: Impact on Pathology

Status: March 2012
